

FireDisk 800-s

**Fastest ever triple connectivity
up to 1.5 Gbps**

Description

Unibrain introduces FireDisk800-s™, the fastest drive ever with Triple connectivity (FireWire 800, eSATA and USB 2.0) and many innovative features. The next generation FireDisk800-s™ is a slim, stylish and powerful aluminum 3.5" external SATA hard drive. Ideal for multimedia users and quiet working environments, it features fan less design and passive cooling.

Next-generation speed

Equipped with the fastest-ever FireWire standard, this drive is capable of reaching transfer speeds of up to 1.5 Gbit/s for eSATA users, 800Mbit/s for FireWire 800 users and 480Mbit/s for USB 2.0 users. The FireDisk800-s™ Hard Drive's triple interface, 7200 rpm speed and 8MB buffer make it the fastest-possible storage solution for digital content creators.

Universal ease of use

With plug and play convenience, FireDisk800-s™ Hard Drives are hot-pluggable for easy cross-platform file transfer and data sharing. With the appropriate cable, Unibrain's new hard drives can be connected to any computer equipped with FireWire 800 (9-pin), FireWire 400 (6-pin), eSATA, USB 2.0 or USB 1.1 ports, making it the most universal drive ever. Long distances (up to 550m) can be obtained by the use of Unibrain's FireWire 800Mbps GOF FireRepeater™ and Glass Optical Fiber.

Packaging

- One FireDisk 800-s™
- One 1.8m (6ft) 1394b cable
- One 1.8m (6ft) USB2 cable
- One power adapter
- One CD with software and documentation

Features

- Real plug and play
- Hot swappable connection
- eSATA (external Serial ATA) 1 port
- FireWire 800 (1394b) 2 ports (9pin)
- FireWire 400 (1394a) 1 port (6pin)
- USB 2.0 (USB1.1) 1 port (mini 5pin)

Windows Requirements

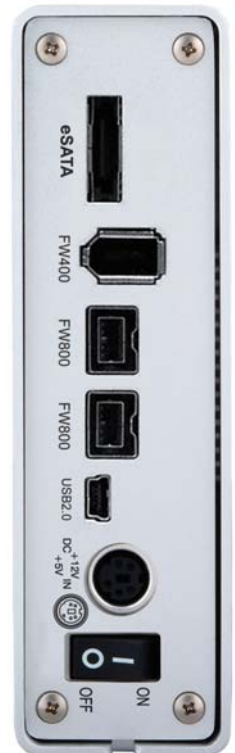

- eSATA/FireWire/USB 2.0: Windows 2000/XP/2003/Vista

*Your hardware device must have proper port or PCI card. eSATA 1.5Gbps Plug and Play support required for host card driver.

Mac Requirements

- eSATA/FireWire/USB 2.0: Mac OS X 10.2 or later

*Your hardware device must have proper port or PCI card. eSATA 1.5Gbps Plug and Play support required for host card driver.
